2025 - 2026 Full Catalog

WHOLESALE ONLY • RESPONSIBLY SOURCED • SATISFACTION GUARANTEED!

Dear Valued Customer,

Thank you for taking the time to explore our latest product catalog. Since Lisa and I acquired Silver Streak, our mission has been simple: to make it easier for you to buy from us—and even more importantly, easier for you to sell to your customers.

We’ve worked hard to enhance your experience by improving our product offerings, streamlining our website, and developing new items that are both eye-catching and shelf-friendly. Many of our products now come pre-packaged and ready to display, saving you time and effort.

You’ll still find our beloved legacy items like tumbled stones, break-open geodes, and carved animals. But we’ve also introduced exciting new lines, including:

- **HemaFight!** – Our exclusive, trademarked hematite game that’s become a top seller.
- **Pawparrazzi Pet Line** – Featuring charming pet necklaces, collars, and accessories your customers will love.
- **Arizona Educational Boxes** – Showcasing unique Arizona treasures like Petrified Wood and Apache Tears, designed to spark curiosity and drive sales.

And that’s just the beginning—there’s much more waiting for you in this catalog.

Beyond products, we believe in giving back. You’ll notice sections highlighting our partnerships with **TCH**, an organization we’ve proudly supported for years, and Gabriel’s Angels, a cause close to our hearts. We support **Gabriel’s Angels** in honor of our son Michael, whom we lost in 2011. Sharing this with you is important to us—it reflects the kind of company you’re partnering with when you choose Silver Streak.

We’ve been in business since 1978, evolving through the years to better serve you. We hope you enjoy the changes we’ve made and the new opportunities they bring to your store.

We’d love to hear your thoughts—what you love, what you’d like to see more of, and how we can better support your business. Please feel free to reach out anytime.

Thank you for being a loyal Silver Streak customer. We truly value your partnership.

Warm Regards,

Roger & Lisa Booth

Desert Rose Selenite

Found in: North America, South America, Africa

Desert Rose Selenite is a cluster of gypsum bladed crystals forming rose-like shapes, with sand grain inclusions. The crystals form in a circular array of flat plates through a process of moisture condensation, followed by sand and wind erosion, giving it a shape similar to a rose blossom. Desert Rose is a beautiful example of the natural power of the shaping forces of wind, water and pressure in dry, arid climates. It is found in the desert regions of Mexico, Morocco, Spain, Tunisia and Arizona. The time it takes to form a Desert Rose Cluster varies depending on the levels of gypsum in the groundwater, ranging from hundreds to thousands to even millions of years.
